CHO-PAT KNEE, LEG, AND ANKLE SUPPORTS

Cho-Pat Original Knee Strap

For two decades, medical professionals, therapists, athletic trainers, athletes, and active individuals have praised our Knee Strap. Why? Shortly after initial usage, it provides many individuals with a marked reduction in the pain and discomfort caused by various knee disorders, degeneration and overuse syndromes and allows them to return to their normal activities.

Cho-Pat's Original Knee Strap applies pressure on the patellar tendon below the knee to stabilize and tighten up on the kneecap mechanism. This action reduces or eliminates inflammation and helps to prevent knees from giving out.

Now available in tan and black.

Product Number	Size	Measure Around Leg Below Knee
CP-12	Ex Small - Black	Less than 10"
CP-13	Ex. Small - Tan	Less than 10"
CP-14	Small - Black	10" - 12.5"
CP-15	Small - Tan	10" - 12.5"
CP-16	Medium - Black	12.5" - 14.5"
CP-17	Medium - Tan	12.5" - 14.5"
CP-18	Large - Black	14.5" - 16.5"
CP-19	Large - Tan	14.5" - 16.5"
CP-20	Ex Large - Black	16.5" - 18"
CP-21	Ex Large - Tan	16.5" - 18"
CP-11	Sp Large - Black	18" - 21"
CP-22	Sp Large - Tan	18" - 21"

Cho-Pat Dual Action Knee Strap

Cho-Pat's patented Dual Action Knee Strap provides an extra dimension of relief for painful and weakened knees. The strap applies pressure upon the patellar tendon below the kneecap to stabilize and tighten up the kneecap mechanism, which improves patellar tracking and elevation and reduces patellar subluxation. It adds further strengthening to the kneecap mechanism by applying pressure on the tendon above the kneecap as well. This tends to reduce the forces of the quadriceps on the patella tendon and erosion of the undersurface of the kneecap due to a possible misalignment of the quadriceps (Q angle).

The device's design and construction apply constant dynamic forces to the surrounding areas of the knee reducing the likelihood of overuse syndromes. At the same time, the strap allows for full mobility while providing maximum benefits.

Product Number	Size	Measure Around Leg At Mid-Kneecap
CP-02	Small	12" - 14"
CP-03	Medium	14" - 16"
CP-04	Large	16" - 18"
CP-05	Extra Large	18" - 20"

Cho-Pat I.T.B Strap

The new I.T.B. Strap applies compression at the area of discomfort to help relieve Iliotibial Band Syndrome. It uses compression to help prevent the snapping or friction of the iliotibial band over the bony prominence just above and outside of the knee joint or further up the leg at the hip joint to assist the healing process.

The I.T.B. Strap is recognized as an effective addition to the treatment procedures for Iliotibial Band Syndrome. As such, while it may alleviate the symptoms of Iliotibial Band Syndrome, the cause may still be present. It is suggested the user seek evaluation and treatment by a medical professional in conjunction with the band's use. Ideally, the user should wear the strap nearest the area of most discomfort. However, the user can wear it about 2" - 3" in either direction with beneficial results.

Warning: Wear tight enough to attain relief but not impede circulation and normal leg movement. Do not wear to bed.

Product Number	Size	Measure Around Leg at Place of Most Discomfort
TB-31	Extra Small	12" - 15.5"
TB-33	Small	15.5" - 18.5"
TB-35	Medium	18.5" - 21"
TB-37	Large	21" - 23.5"
TB-39	Extra Large	23.5" - 26"

CHO-PAT KNEE, LEG, AND ANKLE SUPPORTS

Cho-Pat Dynamic Knee Compression Sleeve

Cho-Pat's Dynamic Knee Compression Sleeve's hydrophobic qualities facilitate the movement of moisture away from the skin while its four-way stretch conforms to the configurations of the knee. The result – a thermo reaction that generates effective therapeutic benefits.

The sleeve is manufactured in the United States of high quality materials – soft, flexible, Microcell foam neoprene (tricot fabric covered) for the front and sides with polyolefin and Lycra material for the back panel - providing dependability and durability. The material is especially formulated to resist bacteria and fungus.

The Dynamic Compression Sleeve should fit snugly but not impede circulation. Measure 3" – 4" above the kneecap to determine the appropriate size.

Product Number	Size	Measure Around Leg Above Kneecap
DK-14	Extra Small	10" - 12"
DK-16	Small	12" - 14"
DK-18	Medium	14" - 16"
DK-20	Large	16" - 18"
DK-22	Extra Large	18" - 20"
DK-24	Super Large	20" - 22"

Cho-Pat Patellar Stabilizer

Cho-Pat's Patellar Stabilizer improves patellar tracking resulting in less knee degeneration, inflammation, and pain. It functions dynamically because the fabric-covered neoprene material applies constant pressure to the joint providing effective symptomatic relief of acute and chronic pain associated with patellar tendonitis, arthritis, and overuse syndromes. In addition, the Stabilizer has four enclosed firm plastic tubes acting as buttresses around the kneecap to reduce patellar subluxation and degeneration.

The Patellar Stabilizer allows for full mobility of the knee joint while providing lateral and medial support for weak and arthritic knees.

Left Leg Product Number	Right Leg Product Number	Size	Measure Circumference at Mid-Kneecap
CP-40	CP-41	Extra Small	12" - 13"
CP-42	CP-43	Small	13" - 14"
CP-44	CP-45	Medium	14" - 16"
CP-46	CP-47	Large	16" - 18"
CP-48	CP-49	Extra Large	18" - 19"

Specify left or right leg when ordering.

Cho-Pat Counter-Force Knee Wrap

Cho-Pat's Counter-Force Knee Wrap is a versatile and dynamic approach to the pain and discomfort associated with knee degeneration resulting from old injuries, arthritis, wear and tear, or normal aging.

Constructed of heavy-duty, stretchable, fabric-covered neoprene, the Counter-Force Knee Wrap provides support and warmth to the knee helping to alleviate patellar pain while still allowing the user full mobility.

Two adjustable straps on the device with hook and loop fasteners make it possible to adjust the wrap for additional kneecap support.

U.S. Patent 5-417-646

Product Number	Size	Measure Circumference at Mid-Kneecap
CP-91	Extra Small	12" - 13.5"
CP-92	Small	13" - 14.5"
CP-93	Medium	14" - 15.5"
CP-94	Large	15" - 16.5"
CP-95	Extra Large	16" - 17.5"
CP-96	XX Large	17" - 18.5"
CP-97	Super Large	18" - 19.5"

CHO-PAT KNEE, LEG, AND ANKLE SUPPORTS

Cho-Pat Achilles Tendon Strap

Cho-Pat's designed its Achilles' Tendon Strap to help alleviate the pain and discomfort associated with Achilles Tendonitis. Developed in cooperation with the Mayo Clinic, the patented strap is widely used by many sports/medicine professionals who recognize it as an effective addition to the traditional treatment procedures for the ailment.

Achilles Tendonitis is a common ailment of individuals in running and jumping sports such as football, basketball, volleyball, soccer, and track. An individual will complain of pain and possible swelling of the Achilles tendon and combined with a decreased ability to perform that may be related to overstraining or unaccustomed use of the tendon.

The Achilles Tendon Strap decreases the tensile forces placed upon the Achilles tendon via the dissemination of forces resulting from a muscular contraction. The strap also promotes an early heel rise, which helps to reduce the stress placed on the tendon.

Product Number	Size	Measure Circumference at the Widest Portion of the Ankle
CP-72	Small	Below 10.5"
CP-74	Medium	10.5" - 11.5"
CP-76	Large	11.5" - 12.5"

Cho-Pat Ankle Support

No matter how strong ankle ligaments and tendons may be, an individual can stress or injure then while walking or running on uneven surfaces, wearing poorly fitted shoes or, rolling over the ankle during a fall. Regardless of the reason or the degree of injury, it is important to keep weight off the ankle until the swelling and pain subside.

The Cho-Pat Ankle Support provides dynamic support to stretched or torn ligaments, stabilizes the foot, and provides warmth to reduce swelling and fluid build-up. An elastic, removable Velcro fastener that allows the user to apply additional compression to specific locations is easily applied or removed. The Ankle Support fits most work, walking, or running shoes.

Warning: When in doubt as to the nature of injury or if swelling and pain persists, see a doctor.

Product Number	Size	Unisex, Based On Body Build
CP-80	Small	Under 100 Lbs.
CP-82	Medium	100 - 150 Lbs.
CP-84	Large	150 - 200 Lbs.
CP-86	X-Large	Over 200 Lbs.

Shin Splint Compression Sleeve

Medical professionals designed and evaluated Cho-Pat's unique, sports/medical device that alleviates the symptoms of pain and discomfort associated with shin splints.

The Shin Splint Compression Sleeve works by providing gentle compression forces while firmly supporting the lower leg muscles and soft tissue. The sleeve also tends to stimulate circulation and maintain warmth, which controls fluid build-up. Two foam core straps act as shock absorbers reducing micro trauma to the tendons and other soft tissue and help maintain the device in the proper position.

Use the compression sleeve alone or with other forms of therapy to provide effective relief

Warning: If in doubt as to the origin of your lower leg pain, seek medical attention.

Product Number	Size	Measure Circumference at Mid-calf
CP-30	Small	8" - 11"
CP-32	Medium	11" - 16"
CP-34	Large	16" - 20"
CP-36	Youth	Below 8"

CHO-PAT ARM SUPPORTS

Cho-Pat Forearm (Tennis Elbow) Support

The Cho-Pat Tennis Elbow Splint is a compression device designed to secure and support forearm muscles that are over-exercised or strained during athletic, leisure, or work activities.

The splint has a unique, reinforced tongue comfortably molds to the forearm and fastens with closures. It works by absorbing and dispensing the pain-causing forces relieving stress on the forearm muscles and their attachments and reducing inflammation.

It is very effective for anyone who repeatedly extends the arm and applies force such as golfers, bowlers, baseball, tennis or racquetball players, gardeners or carpenters - anyone who repeatedly extends the arm and then applies force.

Product Number	Size	Measure Circumference of Upper Forearm
CP-23	Small	9" - 10.5"
CP-25	Medium	10.5" - 12"
CP-27	Large	12" - 13.5"
CP-29	Extra Large	13.5" - 15"

Cho-Pat Upper Arm Strap

The Cho-Pat Upper Arm Strap is recommended for swimmers and other sports enthusiasts who may develop painful bicipital or tricipital tendonitis.

The strap, which is worn just above the bicep or tricep, acts as a compression device to prevent the pulling and tearing of tendon fibers.

The Upper Arm Strap was specifically designed to prevent painful "swimmer's arm" but is now used in water and other sports activities where there is a possibility of developing bicipital or tricipital tendonitis.

Product Number	Size	Measure Circumference Above Bicep
CP-60	X-Small	7" - 9.5"
CP-62	Small	9.5" - 11.5"
CP-64	Medium	11.5" - 14.5"
CP-66	Large	14.5" - 16.5"

Cho-Pat Wrist Support

The Cho-Pat Wrist Support diminishes stress or pressure incurred at the hand and wrist that could telescope up the forearm and lead to forearm tendonitis or tennis elbow.

It uses compression around the wrist to lessen the impact on the basic forearm muscle group at their junction in the wrist and hand.

The Wrist Support also eases discomfort caused by Carpal Tunnel Syndrome and is widely praised by individuals who suffer from weak wrists.

Product Number	Size	Measure Circumference Around Wrist
CP-50	X-Small	5.5" - 6"
CP-52	Small	6" - 6.5"
CP-54	Medium	6.5" - 7"
CP-56	Large	7" - 7.5"
CP-58	X-Large	7.5" - 8.5"

CHO-PAT BACK SUPPORT

Cho-Pat Lumbosacral Support

Cho-Pat's Lumbosacral Support helps to decrease the stress and strain on the lower back muscles and tendon relieving associated back pain and allowing the wearer to resume normal activities with less discomfort.

The support uses fabric-covered neoprene, which lets the support apply pressure to the affected area to disperse stress on the muscles while still allowing full mobility. Additionally, the material generates warmth, which assists in the healing process.

It is suggested that this support be worn in conjunction with a rehabilitative program for muscle conditioning and prevention of lower back fatigue and strain.

Product Number	Size	Measure Circumference around Waist
LS-80	Small	28" – 33"
LS-82	Medium	33" – 38"
LS-84	Large	38" – 42"
LS-86	X-Large	42" – 46"
LS-88	XX-Large	46" – 50"

CHO-PAT KNITTED COMPRESSION SUPPORTS

Knitted Compression Supports – Ankle, Calf, Elbow, Hand & Wrist, Knee, and Thigh

Cho-Pat's seamless knitted compression supports use a patented accordion stitching at all flexion areas (knee, ankle, & elbow) which helps prevent chafing, pinching, and wrinkling. These devices help improve blood circulation, rheumatic disorders, varicose veins, and maintain body warmth, which helps to reduce pain and discomfort and promote healing. All products are anatomically contoured for maximum fit, comfort and effectiveness.

ANKLE

Product Number	Size	Measure Circumference of Instep
CS-60	Small	9.75" - 10.25"
CS-62	Medium	10.25" - 10.75"
CS-64	Large	10.75" - 11.75"
CS-66	X-Large	11.75" - 12.75"

ELBOW

Product Number	Size	Measure Circumference Around Elbow
CS-40	Small	9.5" – 9.75"
CS-42	Medium	9.75" – 10"
CS-44	Large	10" – 10.25"
CS-46	X-Large	10.25" – 10.5"

KNEE

Product Number	Size	Measure Circumference of Knee – (Center)
CS-20	Small	11.5" - 13"
CS-22	Medium	13" - 14.5"
CS-24	Large	14.5" - 16"
CS-26	X-Large	16" - 18"

CALF

Product Number	Size	Measure Circumference at Mid-calf
CS-70	Small	8" – 11"
CS-72	Medium	11" – 14.5"
CS-74	Large	14.5" - 18"

HAND & WRIST

Product Number	Size	Measure Circumference of Palm with Hand Flat
CS-50	Small	7" - 7.5"
CS-52	Medium	7.5" – 7.75"
CS-54	Large	7.75" - 8"
CS-56	X-Large	8" – 8.25"

THIGH

Product Number	Size	Measure Circumference of Mid-Thigh
CS-30	Small	17.5" – 18.5"
CS-32	Medium	18.5" – 19.5"
CS-34	Large	19.5" – 20.5"
CS-36	X-Large	20.5" – 21.5"

STOPAIN – LONG LASTING PAIN RELIEF SPRAY

Use STOPAIN for long-lasting relief from sore muscles, mild backaches, tendonitis, bursitis, or arthritis. This topical analgesic, recommended by physicians and pharmacists, is fast acting and works on contact. It has a pleasant scent and will not stain clothes with its non-greasy formula.

Active Ingredient: Menthol 6%
Other Ingredients: Eucalyptus Oil, Peppermint Oil, Methylsulfonylmethane Isopropyl Alcohol, Purified Water USP. Contains no animal by-products. No animal testing.

Ordering

This price list includes the product number, sizing, and price for all of our sports-medical support devices as well as our purchasing terms, guarantee, and shipping charges. Please review all of this information before placing your order.

To Order by Phone

Contact us at 609.261.1336 or 800.221.1601 (Toll Free) between 8:30 a.m. and 5:00 p.m., Eastern Time.

To Order by Mail

Use the form on the opposite side to place an order. Please complete the form as fully as possible and send it and your payment to:

About Cho-Pat...

Cho-Pat was founded by an orthotist whose specialty included the design of corrective support devices for the musculoskeletal system.

The sports-medical devices designed by Cho-Pat are specific in nature and serve to alleviate, if not eliminate discomfort due to anatomical and/or biomechanical deficiencies or injuries. Our devices are highly recommended and used by hospitals, medical professionals, athletic trainers, professional athletes, and individuals.
